POWER

GENERAL INDEX TO VOLUME LXIV

July 1 to December 31, 1926

EXPLANATORY NOTE

Illustrated articles are marked with an asterisk (*), book notices with a dagger (†), inquires with a double dagger (‡). The cross-references condense the material and assist the reader, but are not to be regarded as complete or inclusive. So, if there were a reference from "Boiler" to "Stoker," and if the searcher failed to find the required article under the latter word, he should look through the "boiler" entries, or others that the topic might suggest, as he would have done had there been no cross-reference. Letters are indexed under title or subjects, general articles under writer's name as well. Not all articles relating to a given topic necessarily appear under the same entries.

Following is a list of the pages included in the several numbers of the volume, by date:

July	6	Pages	1- 38
"	13	"	39- 76
"	20	"	77-114
"	27	"	115-152
Aug.	3	"	153-190
"	10	"	191-230
"	17	"	231-266
"	24	"	267-304
"	31	"	305-352
Sept.	7	"	353-388
"	14	"	389-426
"	21	"	427-464
"	28	"	465-502
Oct.	5	"	503-540
"	12	"	541-578
"	19	"	579-614
"	26	"	615-650
Nov.	2	"	651-686
"	9	"	687-722
"	16	"	723-760
"	23	"	761-796
"	30	"	797-848
Dec.	7	"	849-886
"	14	"	887-932
"	21	"	933-968
"	28	"	969-1066

A

Aboard? Can we compete ..... †147
Absorption see "Refrigeration"
Accidents, Higher production and fewer—Survey shows 683
Accidents, Little things often lead to disastrous. Boehm 334
Accomplishment, Intention and. Low ... 427
Accounting for engineers 454
Accounting for industrial plants, Power station 894
Accumulator is used with electric boilers, Steam—Canadian newsprint mill has unusual steam plant *688
Accumulator, Smoothing out the load with a steam. Patter and Zuerow *554
Accumulators used to equalize exhaust steam demands *207
Adirondack hearing off—Attorney General Ottinger ill 572
Advice, Not too old to study or profit by good 294
African plant to operate on lowest fuel cost 188
Age, middle, and opportunity 671, Disc. 783, 843
Agreement, Now is the time for an 672
Air and the stoker, Hot 991
Air ejector uses less steam, Three-stage, Morgan ..... *127, Disc. 530
Air, How much excess? Bailey *607
Air leaks in the boiler setting, Watch the 747
Air machines, Frosting Fitzgerald 944
Air over the fire, Experience with pre-heated 489
Air preheaters, Operation of 642
Air—Static pressure, Measurement of, Fechheimer *900
Air to turbine runners improves efficiency, Admitting, Kerr *580
Air? What is the limit in reducing excess, Bailey *65
Aircraft, Steam power plants for, Wilson 68
Alabama Power Co. resumes use of Wilson Dam 148, Lease of Alabama Power Co. to run another year 883
Alaska's largest power plant begun 301
Alaska plant wiped out by fire 188
Alcohol keeps plant apparatus from freezing 782
Alden, Geo. I. Dr., Death of 462
Alignment, Checking machine 27
Allis-Chalmers, Chicago-Milwaukee engineers visit 610
Almaden quicksilver mine wants big prices 573
Along: Getting. Low 1
American Car & Foundry Co.—Damages awarded workman injured when crane man misunderstands signal 978
American Engineering Council reports 499, Higher production and fewer accidents—Survey shows 683
American Engineering Standards Committee—Standardizing motor dimensions 954
American-European Utilities Corp. plans to electrify Poland 301
American Gas Association—Combustion †609, Pools half million for research .. 682
American Institute of Electrical Engineers appointments for the coming year, Some 300
American Petroleum Institute Says laws prevent oil saving by banning combinations 928
American Radiator Co.—Arco motor valve *961
American Refractories Institute will hold technical program 611
American Seeding Co.—Turbine wreck due to closing wrong valve *523
American Society of Heating and Ventilating Engineers plan record gathering ... 927
American Society of Mechanical Engineers—Schwab heads A.S.M.E. list for 1927 officers 110, A.S.M.E. travel party stops at Paradise Valley en route from San Francisco convention *111, Steam power to supplement hydro-electric systems a feature of A.S.M.E. meeting (San Francisco) 71, Dr. Milliken receives medal at A.S.M.E. banquet 149, A Boiler-Operating Code needed 449, Mechanical engineers told more dignity is needed 459, A.S.M.E. Boiler Construction Code †534, Mechanical engineers hold meeting at Richmond 536, A.S.M.E. announces program for annual meeting 682, A.S.M.E. rules for coke burning issued 718, A.S.M.E. novel excursions for annual meeting 845, The A.S.M.E. Low 887, A.S.M.E. holds forty-seventh annual meeting *888, Safety in the power plant 953, Industrial power receives attention from A.S.M.E. 953
American Society of Refrigerating Engineers, Heat transmission discussed in joint session with 895, Refrigerating engineers encourage research 913
American Society of Testing Materials Tentative Standards 1926 ..... †881
American Stove Company revamps plant .. *766
American Superpower Corp. to amend application 264
American Welding Society plans fall meeting 226, Welding exhibit at annual society meeting 384, Buffalo convention to mark progress in welding 572, Large exhibition and live meetings star features of welding convention 792, The future of welding 837
Ammonia see "Refrigerating"
Amsterdam station Adirondack Power and Light Corp. *283
Appalachian Electric plans Virginia development 422
Arch, Chico flat suspended *297
Arch problems, Boiler Schaphorst 335
Arches, boiler, Length and height of 638
Arches of "Mech" brick, Bonded *31
Arco motor valve *961
Arithmetic and engineering 525
Arkansas Power and Light biggest in state, Merger forms 572
Armature see "Electricity"
Armour & Co. Analyses of boiler feed water at plant of *215
Armstead, Frank C., Death of 500, 574
Armstrong trap of large capacity, New... *714
Ash conveyors, Steam-jet, Alexander 594, Disc. 748
Atomic energy? Why such expectations from 450
Aurand, Jr. commutator slotter, The *222
Austria readjusting her electrical industry 302
Autotransformer at River station *700
Autumn, Low 687
Avon station made gala day by Cleveland Electric Illuminating Co., Opening of *224, High spots in the design of Cleveland's new Avon plant *466
"Axiflo" type sump-pump 223

B

Babcock & Wilcox Co. analyses feed waters of boilers at Armour & Co. *215
Bacharach Industrial Instrument Co.—Duty on engine indicators put at 40 per cent 573, Engine indicator for high speeds and pressures *875, Portable electric CO_2 meter *569
Baffles in vertical boiler, Seven per cent fuel saved by altering *60
Baffles with a refractory gun, Repairing leaky *564
Bailey meter control operates, How the... *198
Balch power, plant, Construction view of.. *948
Bale, Switzerland see "Basel"
Balfour Mill insures operation by installing power plant *154
Barking station, part of London's electrical consolidation, Addition to *859
Basel, Switzerland—Many nations to contribute at World Power Congress 149, The Power Conference at Basel 211, Hugh L. Cooper discusses water power and navagation at Basel 419, Water power and navigation outstanding topices discussed at Basel conference, Andrews *475, Basel conference gives much attention to steam and hydro-electric plant interconnection, Andrews 517, Some exhibits at Basel *518, *519, Observations at Basel 525, Turbine and plant efficiencies at Lilla Edet station, Andrews *560, Operating of hydro and steam plants in parallel Mitchell and Gallalee *570, May hold next power conference in United States 612, Exchange of electrical energy between countries *680
Batteries, How to prevent lead poisoning when working on storage 592
Batteries, storage, Experts give instructions for maintaining 644
Beacon Street heating plant, World's largest boilers at, Walker *762, Edit. 779
Bearing was kept in service, How the worn *413
Bearings, Gage for checking wear on crankshaft *142
Bearings, Poor starting of Diesel damaged *746
Bearings, Use intelligence in oiling, Cowles 238
Beers Co. F.—The P & B oil burner *383
Belgium plant, Eight hundred pound steam carried by *146
Belt creep and slip, Distribution of 973
Belt holes in floors, Locating *955
Belt tightener in a limited space, Arranging a *923
Belt to drive press, Size of ..... ‡348
Belt transmission and idler pulleys *220
Belts, Pointers in lacing leather ...*710, *957
Benson Springs (Fla.) station reports progress 717
Bethlehem Steel Corp., Engineering visit new plant of 537, Power plant has many unusual features *798, Edit. 838
Bibb Manufacturing Co.—Automatic hydro-electric plant serves dual purpose 365
Binary vapor cycles 253
Bird & Son, Inc.—Small back-pressure turbine saves $4,080 in eight months, Roberts *735
Blackboard in boiler room saves time and obliterates mistakes, Use of *101
Blades, Gazing turbine 488
Block, Morris gravity—lowering chain ... *495
Blodgett & Co., Stone & Webster in combine with 964
Blowdown, Estimating the, Jenkins 620, Disc. 873
Blowers, Examine your soot 602
Blowoff lines, Protecting *28
Blowoff valves, Order of opening and closing *103, 455, 712

BOILERS

—Air, What is the limit in reducing excess, Bailey *65

BOILERS—Continued
—Tubes blister and burn out, What made the *955
—Tubes, Buckling of boiler 63, 453, 678
—Tubes burn out, Why boiler 61, 260, 379
—Tubing, boiler, at elevated temperatures, White and Clark *892
—Valve stem and rain cause serious corrosion of boiler shell, Leaky *214
—Volumes, Why short flame travel reduces furnace *996
—Wylie-Wilson process of boiler drawoff.. *382
Bolt repair, Foundation, Bloomfield *768
Boney Falls, Mich.—Repairing a dam after three years of service *451
Boy to do a man's work! Never send a .. 671
Bradford Corp.—A noteworthy British turbine 962
Brakes, elevator, Operation and adjustment of a.-c. Cook and Annett *366
Breed, Richard Edwards, Death of 648
Brick, Bonded arches of "Mech." *31
Brine pump maintenance, Eliminating *413
Bristol temperature controller *183
British Board of Trade forms fuel and power committee 459
British view of power development, A. 69
Bromley, John & Sons, Inc. Modernized boiler plant and electric drive nets 35 per cent on investment, Wilson *428, Disc, ... 642
Bronson, Frederic E. Elected by Ottawa & Hull Power 756
Brooklyn Edison operating largest steam turbine 384
Brooklyn Polytechnic, Oil engine course reopens at 461
Brown, Chas. S. Prof., Death of 386
Brown electrically operated flow meter ... *494
Brushes, carbon, Easy way to grind *60
Bubbles in ammonia receives, What causes *294, 529, 567, 747
Bucket conveyors and storage equipment, Sayers *240
Bucket elevator, Installing a continuous .. *527
Buckets, Repair of elevator *782
Buffalo, Niagara & Eastern elects directors 846
Bundy steam trap, Improved *418
Bungalow, Power station dons seemly garb as 1003
Burden Iron Works—Operated same engines for 59 years *202
Bureau of Mines formation, Engineers prominent in new 301
Bureau of Standards, New motor fuel submitted to 36, Greatest of laboratories—Hoover 927
Burner, The P & B oil *383
Business Annals, Thorp and Mitchell .... †609
Business, Big—How to keep it beneficent 143

C

Cable, Repairing an armoured three-conductor *709
Cable supports, Preventing heating of alternating-current *414
Cables was prevented, How heating of lead coverings on *140
Cahokia, Experience at Clifford and Tenney *268, Edit, 289, Results with unit pulverizers at Tenney *806
Calorimeter, Ellison U-path steam *874
Cambria Works—Bethlehem Steel Company power plant has many unusual features *798, Edit 838
Campbell feed-water regulator *606
Cams, Use of ..... ‡456
Canada Electric Co.—Pioneer mine power company to build new plant 386
Canada power projects need $1,300,000,000—1926-45 299
Canadian National Railways boiler kills five in explosion 965
Canadian power development, Further 112
"Carbonite" new fuel for motor trucks... 655
Carbonization, see "Coal"
Carbonization subject of Chemical Society session, Fuel 422
Carnegie Institute to hold bituminous coal congress 499, Noted experts on fuel oil to lead coal conference 611, A worthwhile conference 635, A masterpiece of research 779, International conference at Pittsburgh marks advance in fuel knowledge *788, The romance of coal conference 837, New developments in coal research pictured by British scientist *912, Methods of solving the great fuel problem 873, Why short flame travel reduces furnace volumes *996
Cement plant produces all its power from waste heat, Modern, Arnold *232
Central station power, Session on *907
Central stations sales managers meet 226
Central stations, Use of high steam pressures and temperatures in 634
Centralas Electriques des Flandres carries eight hundred pounds steam, Plant of .. *146
Centrifugal, see "Pump"
Chain block, Morris gravity-lowering *495
"Chain" dont's, Some, Fliegelman 665
Chapman, C. A., Death of 612
Chart calculates proper boiler blowdown, Jackson *582
Chart, Combustion, Christie *397
Charts simplify hydraulic computations, Livingston *986
Cheat Haven plant *948
Chelan project, Washington Water Power Co. pushes 573
Chemical Society session, Fuel carbonization subject of 422
Chicago-Milwaukee engineers visit Allis-Chalmers 610

Page

Chico-wall tile blocks *223
Flat suspended arch *297
Chimney design 412
Christmas, Merry, Low 933
Chuse Engine & Mfg. Co.—A bleeder-type steam engine *396
Cincinnati Engineers' Club, new quarters for 301
Cincinnati street lines—"Cheaper to buy".. 226
Clapp, G. S., managing director, N.E.L.A. appoints *610
Clapp, Henry, Engineers should follow 955
Cleaner and gun, Improved condenser tube. *715
Cleaning tools for internal threads *637
Cleveland Electric Illuminating Co., Opening of Avon station made gala day by *224
Cleveland municipal plant, Test of 15,000 kw. turbine at the, Quayle *583
Climax engine pumping units *298
CO_2, A simple experiment with *679
CO_2 compressors, Lubrication of 288
CO_2 in a central heating plant, Continuous 12 per cent *15
CO_2 is higher? Why is the flue gas cooler when the 477
CO_2 meter, Bacharach portable electric.... *569
Coal—African plant to operate at lowest fuel cost 189
Coal and ash handling, Modern methods in, Sayers *133, Elevators and conveyors for coal handling *169, Belt conveyors and skip hoists *204, Equipment for crushing coal *284
Coal and coke, English industrial plant uses pulverized, Scott 33
Coal and gas rises, Power use of—Oil use declines 350
Coal and Giant Powder, Committee on—National body scores high rates controlled by few 883
Coal and power comparatively small item in manufacturing industry, Cost of 605
Coal—Fuel problem, Methods of solving the great 873
Coal, bituminous, Complete gasification of, McBride 903
Coal, bituminous, The why, when and how of storing *354
Coal-Carbonization Low-temperature, Fieldner 902
—Coal—Carbonization still in doubt, Future of low-temperature 902
Coal—Coke burning issued, A.S.M.E. rules for 718
Coal congress, Carnegie Institute to hold bituminous 499, Noted experts on fuel oil to lead coal conference 611, A worthwhile conference 635, A masterpiece of research 779, International conference at Pittsburgh marks advance in fuel knowledge *788, The romance of coal conference, 837, New developments in coal research pictured by British scientist *912, Methods of solving the great fuel problem 873, Why short flame travel reduces furnace volumes *996
Coal, Distillation of, Blauvelt 902
Coal-dust engine, The possibilities of the 23, The coal-dust engine 296
Coal—Experience with preheated air over the 489
Coal exports, Increased power a factor in smaller 462
Coal—Fuel economy the most important thing, Is 527
Coal—Fuel saving not the whole story.... 99
Coal, Furnace volumes and heat liberation with pulverized 497
Coal Industry, Government Regulation of the, Johnson ..... ‡458
Coal—Lignite, Burning *871
Coal—Mine wage conference may convene this month 538
Coal moisture acute problem for Australia, Brown 36
Coal on powdered coal firing, Effect of wet, Bement 866
Coal output for 1926 ahead of 1925 period, Soft 301
Coal Pile, Getting the most from the 376
Coal—Powdered fuel, Ohio Brass Co. reports experience with, Wolf 109
Coal preparation and handling at Trenton Channel, Drake *652, Coal preparation and handling at Trenton Channel.... *697
Coal, pulverized, and public fancy 562
Coal, pulverized, for widely fluctuating load, Virginian Railway adopts *359
Coal—Pulverized-fuel systems, Regulations for the installation of 876
Coal, pulverized, installations, Safety regulations for 867
Coal, pulverized, plants, Making electrical drives safe in, Wyman *504
Coal, pulverized, Fire hazards with 567
Coal—Pulverizers at Cahokia, Results with unit, Tenney *806
Coal-Research, A masterpiece of 779
Coal research pictured by British scientist, New developments in, Lander *912
Coal sampler at Springdale station, Automatic Thorsten *974
Coal saving, Central stations show big 150
Coal, Steaming tests with Indiana 533
Coal stocks indicate need for lighter buying, Larger—Overselling feared *794
Coal strikes—Now is the time for an agreement 672
Coal—The broader interest, Low 115
Coal used when putting a boiler on the line be included when figuring evaporation? Should 638
Cochrane improved pressure filter *145
Coffin, Chas. A., founder of General Electric, dies 110, Life extolled by General Electric Co. 226
Coils, see "Electricity"
CoKal Stoker Corp.—The "Pulverzone" .. *183
